## About Sally

Sally is an easy-going, friendly, sweet potato of a dog. She is a 60lb, pit bull mix. Although her veterinarian and human mom are working diligently to get her down to a healthier weight, Sally continues to embrace her self-proclaimed role as a “Plus-Sized Pittie Model”.

Sally’s disposition is sugar sweet. She exudes love and kindness to her many people and animal friends. When Sally gets excited or happy, she wags her tail so enthusiastically that her entire lower torso wiggles comically. “The Wiggle Butt Dance”, as her human mom calls it, has become Sally’s signature move and she would love to show it to you sometime.

## Activities

At seven years old, Sally has blissfully entered her retirement years. She spends her days napping on the softest surfaces available – her favorite being clean laundry piles and when unsupervised, her human mom’s fluffy memory foam bed. She is also a fierce cuddler and food taster extraordinaire.

More notably, for the past three years, Sally has been a canine teacher for public education sessions at San Diego Humane Society. Sally serves as the dog that people and children can practice on, after they learn how to properly greet and handle animals.
